Excel

What is Excel?

- A spreadsheet program used for organizing data.
- Helps with calculations, charts, and data analysis.
- Commonly used in business, finance, and school projects.

Basic Features of Excel:

- Cells – Where you enter data.
- Rows & Columns – Organize information (Rows: numbers, Columns: letters).
- Formulas & Functions – Automate calculations.

TASK

Open Excel and explore the interface (Cells, Rows, Columns, Ribbon).

Basic Functions & Formatting

Common Excel Functions:

- SUM(A1:A5) → Adds values in cells A1 to A5.
- AVERAGE(B1:B5) → Finds the average of selected numbers.
- IF(C1>50, "Pass", "Fail") → Checks conditions and returns a value.

Formatting Tools:

- Bold, Italics, Font Colors – Home tab.
- Cell Borders & Background Colors – Makes data clear.
- Sorting & Filtering – Organizes data easily.

TASK

Enter five numbers in a column and use the SUM() function.

Creating Charts & Final Task

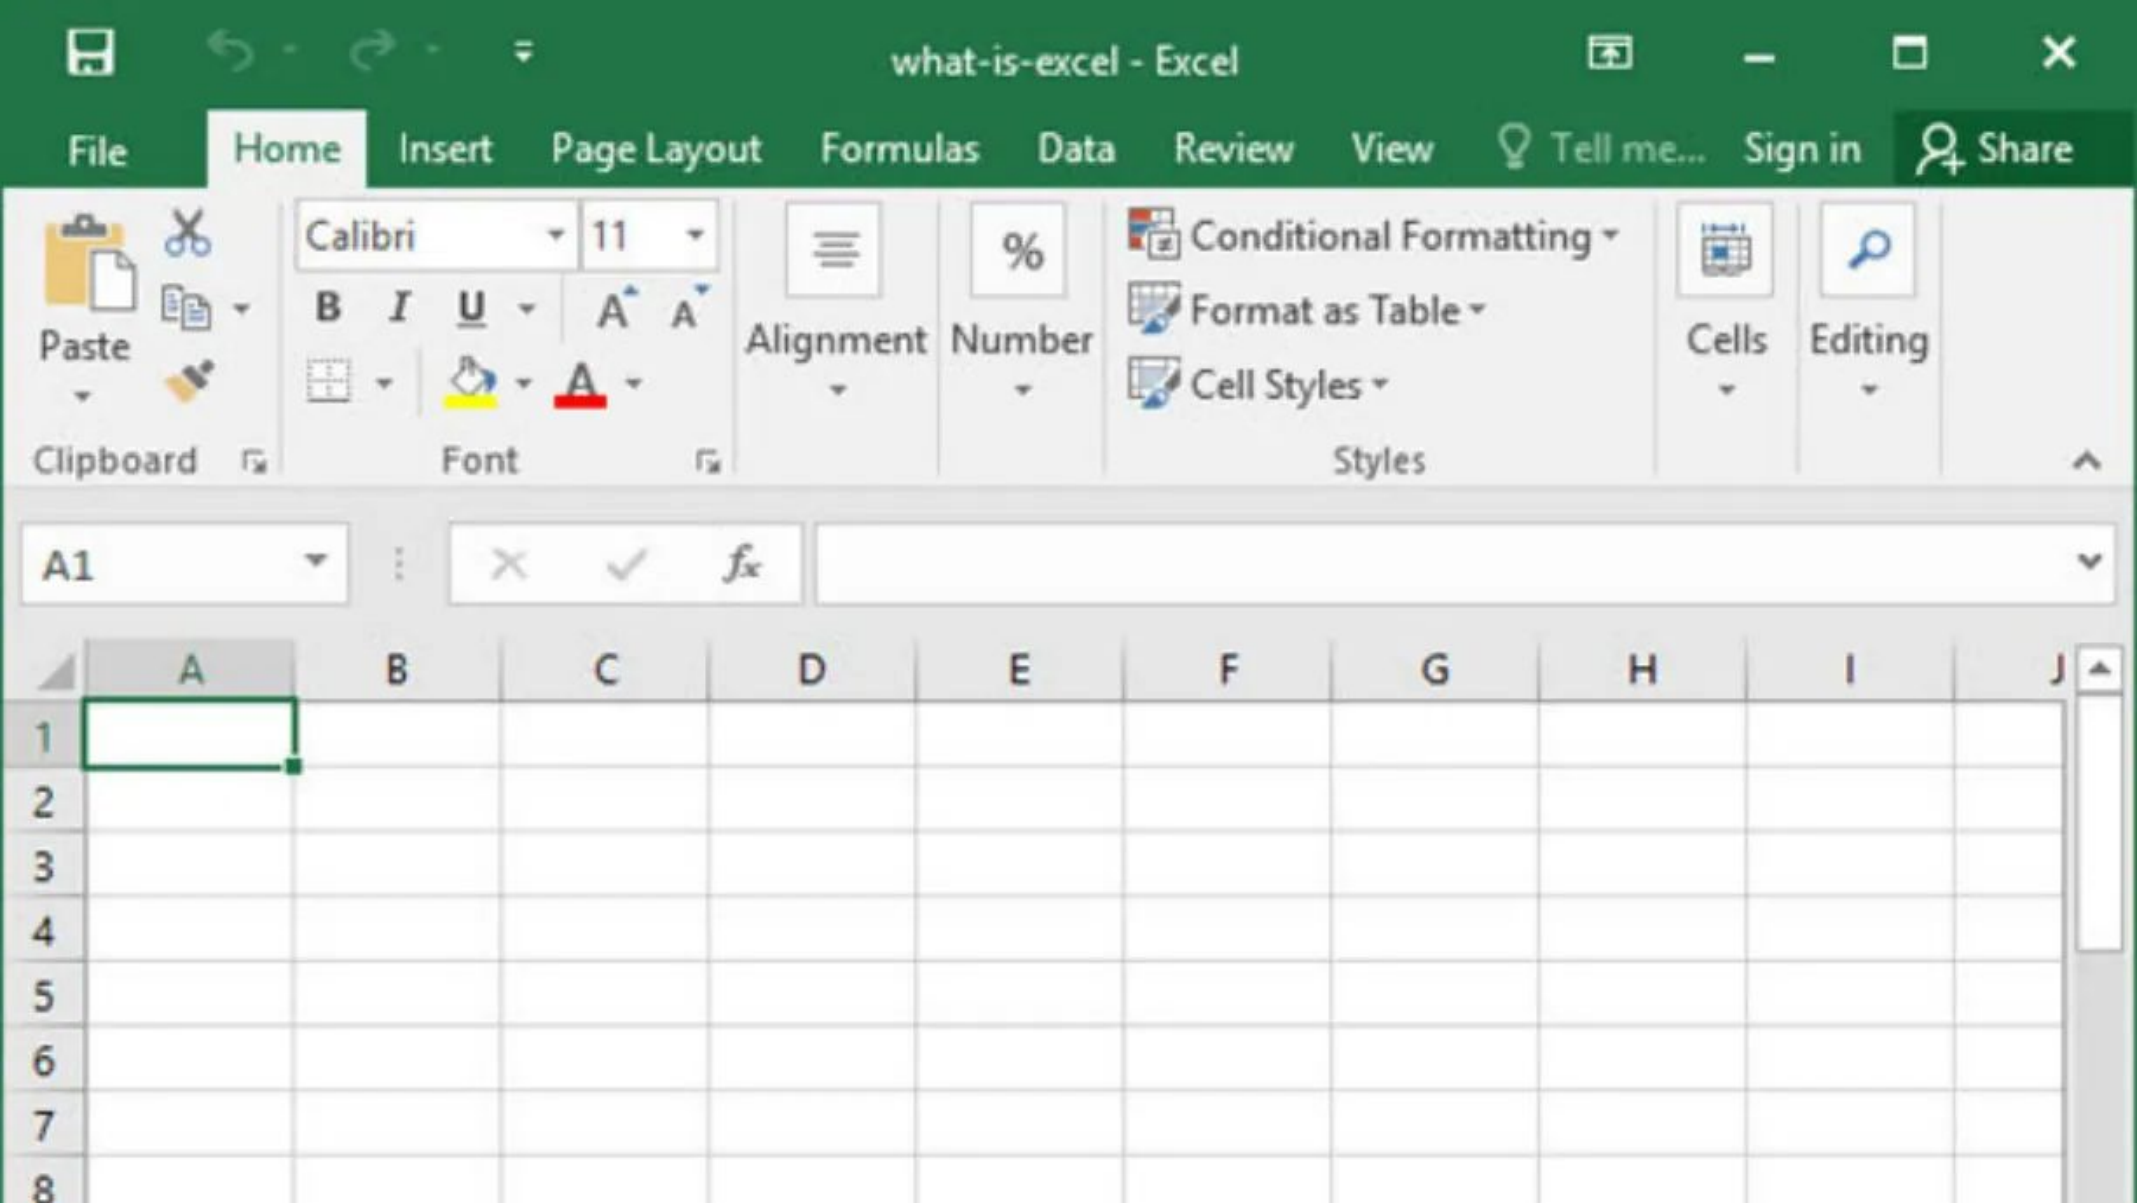

Visualizing Data with Charts:

- Select data → Click Insert → Chart.
- Choose from Bar, Line, or Pie charts.
- Helps in analyzing trends and comparisons.

TASK

- Create a table with students' names and scores.
- Use AVERAGE() to find the average score.
- Insert a bar chart to show the scores visually.

Power Point

What is PowerPoint?

- A tool for creating presentations.
- Used for school, business, and projects.
- Allows adding text, images, charts, and animations.

Basic Features:

- Slides: The pages of your presentation.
- Ribbon: Menu bar with tools (Home, Insert, Design, etc.).
- Slide Sorter: Organizes slides in order.

TASK

Open PowerPoint and explore the different tabs (Home, Insert, Design).

Creating & Formatting Slides

Adding & Editing Slides:

- Click New Slide to add a slide.
- Use Layouts for different content styles (Title, Text, Image).
- Change slide order by dragging slides in the sidebar.

Formatting Text & Backgrounds:

- Change font style, size, and color in the Home tab.
- Use Design tab to apply themes and backgrounds.
- Keep text clear and easy to read (avoid too many colors).

TASK

Add 3 slides: one title slide, one text slide, and one image slide.

Adding Visuals & Presenting

Enhancing Slides with Visuals:

- Add images: Insert → Pictures.
- Use SmartArt & Charts for data.
- Keep visuals relevant to your topic.

Transitions & Animations:

- Add slide transitions in the Transitions tab.
- Use Animations to make text or images appear.
- Avoid too many effects – keep it simple.

Present in Slideshow mode (F5)!

TASK

Create 3 slides: A title slide with your name, A slide with text & an image & save the ppt.

THANK YOU!!
